Profile

Motivated junior web developer (16 years old) focused on web applications and SaaS platforms. Experience building real-world projects with active users (e.g., TuningHub). Strong interest in software development, entrepreneurship, and robotics.

Projects

TuningHub – Marketplace Platform 2025

- Built a web platform with 500+ registered users
- Implemented authentication and database using Supabase
- Integrated fuzzy search and structured item management
- Deployed as a web application

Portfolio Website 2025

- Bilingual website (German/English)
- Dark mode, animations, modern UI
- Project filtering by programming language

Skills

Frontend: HTML, CSS, JavaScript

Backend: Supabase, basic Node.js

Tools: Git, VS Code, Figma, Docker

Languages: German (native), English (fluent)

Education

Secondary School – Grade 10 in a few months
